

# Methods of Investigating Food and Eating

## OBJECTIFS

The cycle of seminars MIAM aims at gathering a wide and multidisciplinary range of specialists of different methods in order to make a methodological manual, easily usable and covering the scope of contemporary methods used in sociology, anthropology, political sciences, economics, management sciences, marketing, consumers sciences and nutrition to study food, eating and eaters.

Organizers: Nicolas BRICAS (Chaire UNESCO Alimentation du Monde; Cirad, Moisa), Muriel FIGUIÉ (Cirad, Moisa), Tristan FOURNIER (CNRS, Iris), Olivier LEPILLER (Cirad, Moisa)

## RESULTATS

Planned MIAM agenda:

28 November 2017 MIAM#1

16 January 2018 MIAM#2

15 February 2018 MIAM#3

13 March 2018 MIAM#4

10 April 2018 MIAM#5

15 May MIAM#6

12 June MIAM#7

10 July MIAM#8

11 September MIAM#9

09 October MIAM#10

13 November MIAM#11

11 December MIAM#12

+ 2019 dates: to be defined

Expected contributions on:

Ethno-accounting

Interventional research

Nutritional e-epidemiology and online questionnaire

Quantitative measurement of food consumption

Focus group

Visual methods

Experimental restaurants

Experimental economics

Food barometers and recurring surveys

Connected devices and self-quantification

Household economics

Food (auto-)biographies and food trajectories

Methods for studying the eaters' risks perception and risks management

Methods for studying food security and food satisfaction

## PERSPECTIVES

The MIAM seminars cycle aims at gathering the authors of the future methodological book, to be published in 2019 or 2020.
