

**Comparison of three Arecacea  
genomes: oil palm (*Elaeis  
guineensis*), date palm (*Phoenix  
dactylifera*) and coconut tree  
(*Cocos nucifera*); co-evolution of  
sorghum and striga, association  
study in sorghum and pearl millet**

**PERSPECTIVES**

Comparison of three Arecacea genomes : we are currently annotating all the sequences then the comparison will be performed between the tree Arecacea species and with rice.

A publication on these results will be written jointly by the two research teams
